SUBJECT INDEX

ACTH
changes in steroid patterns following acute and chronic administration, in premature adrenarche, 321
effects of, on the secretory activity of rat adrenal, 841
effects of, -(11–24) on the corticosteroid production of isolated adrenocortical cells, 259
Adenylyl cyclase
regulation of gonadotropin-stimulable, of the primate corpus luteum, 175
Adrenal
steroidogenesis in, effect of ketoconazole, 515
Adrenal cells
hydroxylating activities in newborn rat, 851
Adrenal glomerulosa cells
elongation factor-2 as the major substrate for Ca^{2+}/calmodulin-dependent protein kinase, in rat, 381
Aldosterone
effect of dopamine in the biosynthesis of, 715
induces glycoproteins, 815
Androgen(s)
depressed translational activity of, in the sensitive levator ani muscle of rat, 507
evidence of, binding to a testis protein of a teleost fish, 545
metabolism in the hypothalamus and cerebral cortex in male hamster, 65
metabolism, effect of cobalt-protoporphyrin, in the rat, 421
Andropause
altered function of the gonadotrophs, a new look to the, 163
5α-Androstane-3α,17α-diol
identification of, in adrenal venous plasma of female possum, 591
16-Androstene
synthesis in human testicular homogenates, 689
Antialdosterone(s)
incidence and prevention of sexual side effects, 223
Aromatase
4-hydroxy-4-androstene-3,17-dione, a potent inhibitor of, 699
inhibition in hypophysectomised female rats, 625
R 76713: a new specific non-steroidal inhibitor of, 781
Ascorbic acid
effects of, in adrenocortical mitochondria, 609
Atrial natriuretic peptide
in man, 229

Breast cancer
2- and 4-hydroxyestradiol, binding to estrogen receptor in, 485
multihormone regulation on the long repeat (LTR) region of mouse mammary tumor virus, 357

Chromatin
proteins, effect of estrogen on, in rat uterus, 13
Cortoic acids
synthesis of tritium labeled, 845
CRH
effect of, on the secretory activity of rat adrenal cortex, 841
Cyproterone acetate
effect in male mouse genital tract, 105

11β-Dehydrogenase
evidence for distinct forms of corticosteroid, in rat liver microsomes, 77
isoelectric focusing analysis of, 581
Dehydroepiandrosterone sulfate
monoclonal antibodies to, 553

Diethylstilbestrol
influence of neonatal, on estrogen and androgen receptor in mouse prostate, 559
plasma testosterone levels in mice treated with, 439
DNA
and regulatory elements for steroid hormones, 737
binding of glucocorticoid receptor, 5
role of, in estradiol receptor–nuclear interactions in mouse uteri, 41
Dopamine
the role of, in the control of corticosteroid secretion and metabolism, 217

Epidermal growth factor
receptor
induction of, by androgens in prostate tumor cells, 151
regulation of, by estrogens in the rat uterus, 339
Epididymis
effect of neonatal estrogenization on testosterone metabolism in the, of rat, 459
Estradiol
nuclear localization of, in rat uterine tissue, 681
prevention of bridge binding in immunoassays: a general, tracer structure, 251
Estradiol-17-sulfate
in plasma of rats, 823
Estrogen
effects of, on modifications of chromatin proteins in rat uterus, 13
separation of urinary metabolites of, by HPLC, 91
Estrogen sulfotransferase
role of, in progesterone mediated downregulation of estrogen receptor, 749
Estrone sulfate
radioimmunoassay of, with selective solid phase extraction, 473

Fibroblast growth factor
and the control of pituitary and gonad function, 183
FSH
and the control of follicular growth, 167
serum modulation of the response to, in Sertoli cells, 129

Gene
abnormal glucocorticoid receptor, and mRNA in primary cortisol resistance, 243
Glucocorticoid(s)
effect in a viral tumor marker (MMTV gp52), 499
receptor
from lactating goat mammary tissue, 651
Gonadal steroids
and anterior lobe dynorphin in the male rat, 303
Growth factors
and Shionogi carcinoma cells, 479

HeLa cells
effect of estradiol, catecholestradiol and methoxyestradiols on dividing MCF-7 and, cells, 797
High performance liquid chromatography
of steroid in bovine adrenal glands, 669
2-Hydroxyestradiol
and estradiol effects on tubero-infundibular dopaminergic neurons, in female rats, 71
2-Hydroxyestradiol-17-sulfate
in plasma of rats, 823
4-Hydroxy-4-androstene-3,17-dione
a potent aromatase inhibitor, 699
2- and 16α-Hydroxylases
kinetic studies of inhibition of estradiol, with 17α-ethynyl and 17β-cyano steroids, 85
20α- and 20β-Hydroxy-5α-pregnan-3-one
identification of, in human pregnancy urine, 317

3β-Hydroxysteroid dehydrogenase
regulation of, in human placenta: kinetic analysis and inhibition by steroids, 413
Hypertension
mechanism of adrenocortical steroid in, 205
new mineralocorticoids in, 199

Inhibin
mechanism of action and regulation of, secretion, 193
Insulin
regulation of steroidogenic activity by, in rat culture luteal cells, 393
IVF
induction of ovulation in poor responders, 171

Lactate
activity in MCF-7 cells, 271
Leydig cells
aromatization of 19-norandrogens by, in the pig, 729
steroid sulfohydrolase and steroid sulfotransferase activities in purified, of the pig, 387

Male reproductive function
neuroendocrine control of, 145
MCF-7 cells
cytotoxic effects of estradiol, catecholestradiols and methoxyestradiols on dividing, and HeLa cells, 797
effects of estradiol, R5020, tamoxifen and RU38486 on lactate dehydrogenase activity in, 271
Mineralocorticoid(s)
a new form of the syndrome of apparent, excess, 209
identification and implications of new types of, in hypertension, 199
receptor
the specificity of human: clinical clues to a biological conundrum, 213
Monoclonal antibodies
production of, to dehydroepiandrosterone sulfate, 553
$MtTF_4$ tumor
estrogen receptor in, and action of estradiol in, 45

19-Norandrogens
synthesis and aromatization of, in the stallion testis, 537

18-Oxocortisol
effect of dexamethasone, ACTH and sodium restriction, 409

Peripheral blood plasma
identification of 5β-pregnane and 5β-androstane derivatives in, of the female possum, 565
Phosphorylation
of steroid receptors, 613
Placenta
binding of methyltrienolone to protein of, 493
dissociation of 19-hydroxy, 19-oxo, and aromatizing-activities in human, microsomes, 309
Pregnanediol-3α-glucuronide
determination of, in urine by a direct microplate enzyme immunoassay, 467
Progesterone
effects on female urogenital tract, 35
inhibition of casein synthesis by, 373
metabolism in gastric mucosa of guinea pig, 835
Progesterone 5α-reductase
kinetic mechanism of, in the hypothalamus, 283
Progestin(s)
binding protein to, characterization of heat and acid-stable, 759

Prostate
effect of neonatal estrogenization on testosterone metabolism in, or rat, 459
5α-reductase activity in, of rat, 399
Prostate cancer
steroid sulfates in, 811
Proteins
isolation and characterization of a 50 kDa testosterone-binding, from *Pseudomonas testosteroni*, 27

Receptor(s)
androgen
a single-site allosteric model of intracellular, interaction, 113
domain structure of, and induction of EGF-receptors, 151
in human skin fibroblast, 789
in sexual differentiation, 157
reactivation of, from murine preputial gland by thioredoxin or GSH, 53
estrogen
abnormal methylation of, and reduced, RNA levels in human endometrial carcinomas, 1
binding of 2- and 4-hydroxyestradiol to, from human breast cancers, 485
effects of cytosolic inhibitor to the, in rat uterus and hypothalamus, 433
in $MtTF_4$ tumor, 45
interaction of four fluorescent steroid conjugates with, 345
in the hypothalamus of male rat, 525
mapping on the calf, of the binding domain for an antibody, 769
glucocorticoid
abnormal, gene and mRNA in primary cortisol resistance, 243
associated with small RNA, 633
DNA binding of, protein A fusion proteins expressed in *E. coli*, 5
effects of corticosterone and dexamethasone acetate in, of rat liver, 531
from lactating goat mammary tissue, 651
modification of, binding properties in rat liver, 263
progesterone
biochemical characterization and subunit structure of, in quail oviduct, 703
effects of progesterone on, in female urogenital tract, 35
interaction of antiprogestins and, in rat uterus, 279
interaction of four fluorescent steroid conjugates with, 345
RNA
abnormal methylation of estrogen receptor gene and reduced estrogen receptor, levels in human endometrial carcinomas, 1
glucocorticoid–receptor complexes are association with small, *in vitro*, 633
mRNA
abnormal glucocorticoid receptor gene and, in primary cortisol resistance, 243
RU 486
effect of, on lactate dehydrogenase activity in MCF-7 cells, 271
inhibitory effects of, on progesterone actions and luteinizing hormone secretion in pituitary gonadotrophs, 291
pharmacokinetics of, in women during multiple dose administration, 21

Second messenger
and progesterone secretion in small cells of bovine corpus luteum, 643
Seminal vesicle
control of epithelial cell growth in, of mouse, 719
Sertoli cells
proteins of, in the human seminiferous tubule, 135
signal transduction in, serum modulation of the response to FSH, 129
Sex-hormone-binding globulin
influence of diet on, in adult men, 829
in pregnancy, characterization of low polarity ligands, 873
in pregnancy, identification of low polarity ligands, 865
on the regulation of, a challenge of an old dogma and outlines of an alternative mechanism, 327

Sex steroid-binding protein
half-life of plasma, in the primate, 675
Sex steroids
and steroid binding proteins in primary biliary cirrhosis, 427
Sexual differentiation
and androgen receptors, 157
Shionogi carcinoma cell
growth factors in, 479
Steroidogenesis
sodium-dependent regulation of, in rat granulosa cells, 453
Steroid(s)
C-19, in plasma and prostatic tissue of human, rat and guinea pig, 695
effects of, anaesthesia on some liver function tests in goats, 475
interaction with "digitalis"-receptor sites of Na, K-dependent ATPase, 857
microbial transformation of, by *Phycomyces blakesleeanus*, 445
regulatory elements for, and DNA, 737
Steroid receptors
phosphorylation of, 613
Steroid sulfates
in plasma of rats, 823
in testis tissue of prostate cancer patients, 811

Testis
stimulation of, steroidogenesis by adrenal gland and progesterone, in rat, 573
Testosterone
administration of, to Rhesus monkeys, and identification of radioactivity in cell nuclei from brain, pituitary gland and genital tract, 599
adrenalectomy and secretion of, in the rat, 725
no evidence for aromatization of, in oestrogen receptor containing cells of the epididymis, 299
Transcortin
biosynthesis and intracellular distribution of, in rat liver polyribosomes, 121
Tyrosine aminotransferase
relationship of glucocorticoid receptor and induction of, in rat liver, 99

Viral tumor marker (MMTV gp52)
effect of glucocorticoids on, 499
Vitamin D_3
binding protein for 25-hydroxy, 59

We wish to thank the following persons for their kind cooperation in reviewing papers for *The Journal of Steroid Biochemistry*:
Drs BOHME, Jena, German Democratic Republic; H. L. BRADLOW, New York, U.S.A.; N. BRUNNER, Washington, U.S.A.; R. CLARKE, Washington, U.S.A.; D. S. COLVARD, Rochester, U.S.A.; A. CRASTES de PAULET, Montpellier, France; R. De HERTOGH, Brussels, Belgium; C. L. DENSMORE, Houston, U.S.A.; B. W. ENNIS, Washington, U.S.A.; D. B. GOWER, London, England, U.K.; GROH, Jena, German Democratic Republic; M. E. HARPER, Cardiff, Wales, U.K.; R. A. HIIPAKKA, Chicago, U.S.A.; C. HORHOLD, Jena, German Democratic Republic; P. H.
